A NEW APPROACH TO YOUR PETS' HEALTH

From Monday **19th March 2007** we will be implementing a new approach to your pet's health.

The 'Safari' system has been developed over 20 years and is practised in many countries around the world. We are one of the **first UK practices** to be involved.

All members of our team will be more **interactive** in caring for you and your pet, and each visit you will receive a **personalised colour report complete with your pet's photo**.

The next time you visit the clinic you will be presented with a **'healthmap'**. This important document is personalised to your pet and its requirements for a healthy life. The healthmap is discussed and updated at each subsequent visit.

If you visit us with an ill animal, your report will detail the vet's findings and then give information about the illness and the necessary treatment. The **nurses will discuss the vet's recommendations** at the end of the visit.

We hope you'll appreciate the **changes** and look forward to seeing you soon.

Why not enter our free prize draw – recommend a friend before June 30th 2007 and you could win £250 cash*.

*Terms & Conditions Apply, Draw Takes Place July 1st 2007
